On January 8th, Jap Del provided US Del with letter containing following statement regarding age of vessels per question contained Ref B:

"Among the total of forty-five glass-lined vessels, the twenty-five were exported in September 1959, the twelve in October 1959, the seven in November 1959, and the one in February 1960. The Japanese authorities do not know exactly when the Russian end-user started to use them but consider it safe to presume that they were put in use ~~as soon as their~~ arrival in Russia".
